TITUSVILLE, PA., SATURDAY, JANUARY 11, 1868.

ary, in order to carry out the foregoing provision, is repaired to maintain in the Treasury a reserve of not less than \$50,000,000 of ownful money, similar in all respects to the United States notes an thorized by law, provided the same shall not at any time exceed \$400,000,000, in order to enable the Secretary of the Treasury to redeem the securities of the United States held abroad.

Sixth—Li authorizes the Secretary of the Treasury to Issue bonds payable, principal and interest, in coin in Frankfort or London, bearing interest at the rate of four and a haif per centum per annum, psyable semi annually, at a rate of exchange equivalent to five frances per dollar; such bonds payable in forty years and redeemable wenty years from date, at the pleasure of the United States, in coin, nt à like rate of exchange, and to be issued to an amount not exchange, and to be issued to an amount not exchange and to be issued to an amount on exchange and to be issued to an amount on exchange of the sale or exchange shall not exceed the difference between the said rate of exchange and the market rate of exchange on London or Frankfort.

Entarton and the service of exchange on London or Frankfort.

SENATOR HENDERSON'S PLAN.

The following is a synopsis of a bill to be introduced at an early day by Senator Henderson, of the Fuance Committee, as a substitute for Senator Sherman's bill.

First.—To consolidate the national debt in a long loan, principal and interest payable in gold, the national of the countries in the senator, payable seni annually, to be exempt from all taxation. Second.—All national banks now having bonds filed with the Treasurer to secure circulation

The Secretary's general policy seems to include—

First.—The funding or payment of the balance of interest bearing notes, and a continued contraction of the paper currency.

Second—The minitenance of the public faith in regard to the funded debt—that is, the payment of it according to the intent and understanding of the original contract.

Third—The collection in the Treasury of a large careve of gold, as a means of paying off the large non-interest-bearing notes.

Founti-The liquidation of the debt by a large summal payment, which will extinguish it in the course of a short period of time.

First.—The tessue of bouds to be known as the consolidated debt of the United Stetes, bearing six per cent, interest and having twenty years to run, into which all other obligations of the Government shall, as rapidly as possible, be converted; one-sixth part of the interest at each seminant payment to be reserved by the Government shall, as rapidly as possible, be converted; one-sixth part of the interest at each seminant payment to be reserved by the Government shall, as rapidly as possible, be converted; one-sixth part of the interest at each seminant payment to be reserved by the Government shall, as rapidly as possible, be converted; one-sixth part of the interest at each seminant payment to be reserved by the Government shall, as rapidly as possible, be converted; one-sixth part of the interest at each seminant payment to be reserved by the Government shall, as rapidly as possible, be converted; one-sixth part of the interest at each seminant payment to be reserved by the Government shall, as rapidly as possible, be converted; one-sixth part of the interest at each seminant payment to be reserved by the Government shall, as rapidly as possible, be converted; one-sixth part of the interest at each seminant payment to be reserved by the Government shall, as rapidly as possible, be converted; one-sixth part of the interest at each seminant payment to be reserved by the Government shall an object to the foreign did not th

ions shall have been taken, or is in a fair way to be taken.
Fourth—An immense and instant reduction in the amount of our transition by the reduction of expenditures. Our whole annual expenditure, exclusive of interest on the public debt, ought not to exceed \$100,000,000 a year. Inclusive of interest the whose expenditure would be \$244,000,000 a year. Fifth—To conform to this reduced expenditure he would(1) revise the tariff so as to go back to the system of 1840, with some influent changes; (2) confine the existed dates to influence application, which are the tax alone in the reduced the tax interest in taxations; and (3) increase the tax upon the mitternal taxations; and (3) increase the tax upon the mitternal taxations; and (5) increase the tax upon in addition to Theatres of Olden Times.
